Keep Our Community Safe!

Practice good hand hygiene

- Stop hand shakes and use non-contact greeting methods.
- Regularly wash your hands for at least 20 seconds with soap and water.
- Avoid touching your face and cover your coughs and sneezes.

Mask up!

1. Wash your hands with soap and water or use hand sanitizer before touching the mask.
2. Adjust the mask without leaving gaps on the side.
3. Cover your mouth, nose, and chin fully.

Removing a mask

1. Avoid touching the mask, remove by earloops only.
2. Keep the used mask away from yourself or other surfaces.
3. Wash your hands after removing your mask. Wash your mask after use.

Get the COVID Vaccine

It's a safe, free, and effective way to help you and your neighbors stay healthy.

Vaccine eligibility is continuing to expand. Scan these QR codes for more information about vaccines in your community.

Based on MASCP team observations...

87.5% of people have been wearing masks correctly at this site.

In this kit:

- Cloth mask
- Hand sanitizer
- Hand soap

ABSTRACT

The Community Champions program at the University of Pennsylvania School of Nursing provides motivated nursing students with opportunities to partner with the greater Philadelphia community and engage in hands-on learning. With several thriving initiatives, students participate in service learning outside of the classroom, which ultimately strengthens their nursing and leadership skills. Students work to improve health and health education for people of all ages. These experiences help nursing students better understand the social determinants of health and how they impact community members. Dedicated faculty
